Hemocult ICT is a Fecal Immunochemical Test (FIT) for the detection of blood in stool samples. Occult blood may help identify bleeding polyps or adenomas, as well as aid in the early detection of colorectal cancer (CRC). It is specific to bleeding in the lower GI tract and is not affected by dietary interferences.

- No dietary or drug restrictions
- Excellent 14 day sample stability
- High clinical sensitivity
- Patient education tools and compliance material included
- Flexible testing options available: single & multiple day testing, guaiac & immunochemical

Please fax this form and a copy of your invoice to Sharon Campa at 714-223-4514 or email copies to slcampa@beckman.com to request your free product (check box above). This promotion is available to all new customers of Hemocult ICT. Expires 12/31/2014.
